By the end of the program, students will be able to:

**All Tracks**
1. Evaluate the principles, personal values, and beliefs that influence ethical decision making, which provides a framework for nursing practice.

2. Communicate effectively as a health care professional, creating collaborative interdependent relationships and act as advocates for the nursing profession and client population.

3. Incorporate nursing theory and evidence based practice in advanced nursing roles.

4. Understand the influences of human diversity and social issues in providing culturally sensitive health promotion and disease prevention strategies in a global society.

5. Assume a leadership role in the management of human, fiscal and physical health care resources to improve nursing practice and health care delivery.

**Nurse Practitioner Track**
1. Competently assess, diagnose, prescribe, evaluate and create a holistic plan of treatment.

2. Articulate the professional role, which includes the ethical code of conduct and scope of advanced practice.

3. Develop and monitor comprehensive, holistic plans of care that address the health promotion and disease prevention needs of diverse client populations.

4. Assess and monitor teaching/learning needs in a diverse client population.
